THE BANES OF MUNDANES

"What have you created of your own accord for your own purposes?" - Thomas Martin, Hs.D.

¶ Of course everyone is creative to some extent. The sad truth is that *originality* is outright discouraged or driven off or even "educated" out of most from an early age onward. Some manage to survive: CreativeTypes with the CreativeDrive to make a full-time living from their CreativeOutput.

¶ And yet the "fear-of-success" -- wanting the power and the glory, but not the responsibility -- often holds CreativeTypes back from reaching avowed goals: Distinguishing between dream and reality is crucial.

¶ CreativeTypes of all genres are welcome: artists, writers, musicians, programmers, architects, sculptors, thespians, podiatrists, et cetera ad infinitum! An actively emerging co-op pursues collaborative marketing strategies to facilitate real money in the real world. In this way CreativeTypes can eventually become and remain self-supporting entirely by their CreativeOutput. Come join us for camaraderie and exploring real world options!
